FREE BUT DEMANDING

Admission to the Bootcamp is free. Participants will however be required to be disciplined and committed to learning. The training will be intense and accelerated. Participants will be required to put in more time to focus.

ADMISSION

This is a free programme. Admission is free. No form of payment is expected from participants. However, some form of screening will be done from our end to ensure that people enroll from programs they are qualified to take. For instance, participants need to be computer literate to take a Website Development Course.

Full Training KIT including: Materials, Time Table, Course Outline, etc. will be emailed to participants who have successfully registered.

A COMMUNITY OF EXPERTS

The boot camp will attract diverse groups of people. It will give participants the opportunities to network with others and create a strong network of skilled people in the same industry

LEARNING BY DOING

The principle of learning by doing is what drives all our programmes. We believe strongly that the best way to teach is through action. All programmes during this boot camp will be full practical. Students are therefore advised to come with their own laptops if they have.

PRACTICAL/PROJECT FOCUSED

By the end of the training, Participants will be required to identify a key challenge to solve either as a group or as an individual and present their solution and receive specific, and actionable feedback. This is the hallmark of the boot camp.

MATERIAL

A standard comprehensive manual will be given to all students before the commencement of their classes. This package will be emailed to participants upon confirmation of registration. Hardcopy of material MAY also be made available.

INDUSTRY EXPERTS

The trainers for this boot camp are practicing professionals with a wealth of experience across various industries.

CERTIFICATE

A Certificate of Participation will be awarded to participants who attend all the modules and fulfill all the requirements of the workshop.

MENTORING

Participants will be attached to experts for mentoring purposes after the training programme. Some will be placed on internship.

TRAINING DURATION AND TIME

Full course contents and lesson plans will be issued alongside materials.
The programme would last for about **2 weeks** depending on the course.
